

# Remittance Prices Worldwide

Annex to Issue 28, December 2018

---

*This Report reflects the latest trends observed in the data published in December 2018.*

*Remittance Prices Worldwide is available at <http://remittanceprices.worldbank.org>*

## Annex - Cost trends for remittance amount USD 500

### Introduction

This Annex is a continued supplement to the ongoing Global Cost Reduction monitoring efforts established with the main RPW Quarterly Report. Global targets for reduction of remittances cost have focused on the USD 200 (or local currency equivalent) as amount sent, which is believed to be an accurate representation of a typical remittance transaction. However, data for USD 500 (or equivalent) have also been collected alongside the data for USD 200 and has been analyzed since Q4 2017 to compliment the USD 200 analysis.

The analysis in this annex shows again that, as expected, the cost of sending USD 500 is lower as a percentage of amount sent compared to the cost of sending USD 200. The analysis additionally confirms that the cost of sending USD 500 has followed a similar trend to the one observed over the last years for USD 200.

### Global trends

#### Global Average Total Cost remains stable

In Q4 2018, the Global Average cost for sending USD 500 was 4.67 percent. The average cost of sending USD 500 has remained below 5.00 percent total average cost since Q2 2014, and has never exhibited a value above 6 percent (the costliest period was in Q3 2011, where the total average cost of sending USD 500 was recorded at 5.59 percent). The Global Average of sending USD 500 exhibits an overall downwards trend since Q1 2011, as seen in Figure 1 below. This represents a decline of 0.65 percentage points since Q1 2011, when the figure was recorded at 5.32 percent. Over the preceding 5-year period (Q4 2013 – Q4 2018), the total cost of sending USD 500 has decreased by 0.55 percentage points.

#### International MTO Index

The International MTO Index tracks the prices of MTOs that are present in at least 85 percent of corridors covered in the RPW database.<sup>i</sup> In Q4 2018, the International MTO Index for USD 500 remained stable, recording a minimal decrease to 5.57 percent from the previous value of 5.61 percent in Q3 2018. The International MTO Index for USD 500 has remained below 6 percent since Q3 2013 when this figure was recorded at 6.02 percent. As seen in Figure 1, the International MTO Index exhibits an overall downwards trend. This continued decrease in costs is in contrast with the Global Average cost of sending USD 500, which has led a more volatile path over the past year.

Figure 1 Global Average Total Cost for sending USD 500

G20

## Countries

### Cost of sending remittances from and to G20 countries

The cost of remitting USD 500 from G20 countries has remained below 5.00 percent since Q1 2014, when this figure was recorded at 5.10 percent. The total cost of remitting USD 500 from G20 countries has closely followed a similar trend as the Global Average of sending USD 500, as seen in Figure 2. The cost of remitting USD 500 from G20 countries in Q4 2018 increased modestly, recorded at 4.83 percent.

Figure 2 Average cost of sending USD 500 from G20 countries

South Africa is the most expensive G20 country to send USD 500 from, consistent with the USD 200 findings (see Figure 3), and this is despite an overall decrease from its peak in Q2 2013, when the cost of sending from South Africa was more than 12 percent. In Q4 2018, remitting USD 500 from South Africa incurred an average cost of 8.97 percent. Russia is the least expensive sending country in this grouping, exhibiting a total average cost of sending USD 500 of 1.63 percent, followed by Korea (2.55 percent), Italy (4.06 percent) and the United States (4.09 percent). Of this group South Africa, Turkey, France, Canada, Germany, Japan, the UK, Australia and Brazil exhibit costs higher than the Global Average in Q4 2018.

Figure 3 Average cost of remitting from G20 countries

Figures 4 and 5 display the total average cost of sending USD 500 to G20 countries over time and in Q4 2018, respectively. The average cost of sending USD 500 to the G20 countries that are included in RPW as receiving markets increased modestly between Q3 and Q4 of 2018, recorded at 4.51 percent in Q4 2018.

For the 8<sup>th</sup> consecutive quarter the cost of remitting USD 500 to G20 countries is recorded below the Global Average cost of sending USD 500. The most expensive countries in this grouping to remit to were South Africa (5.66 percent), Brazil (5.40 percent) and China (5.36). Over the last 5 years, the total average cost of sending to G20 countries has decreased by 0.67 percentage points (in Q4 2013, this figure was recorded at 5.18 percent).
